INTERESTED IN LEARNING MORE?
Come visit us at the heart of the Adirondacks for a truly unique museum experience. Since opening our doors to the public in 1957, we have delighted millions of visitors with fascinating exhibits and stories about life in the Adirondack region. With over 23 historical and contemporary buildings on 121 acres overlooking Blue Mountain Lake, our open-air campus offers everyone lots to see and do. Step into the rich history of our region as you row an authentic guideboat from the new ADKX Boathouse or break up a log jam and set off a mine charge in Life in the Adirondacks.

**FEATURED EXHIBITS**

**ARTISTS & INSPIRATION IN THE WILD! (OPENING JULY 1)**
This upcoming exhibition will feature the most comprehensive showing of our art collection in the museum’s history. The four main galleries will illustrate how the natural features of the Adirondacks—light, forests, water, and mountains—have sparked the creative visions of painters, sculptors, and artisans.

**SCARRED LANDSCAPE: THE ADIRONDACK PHOTOGRAPHS OF J. HENRY FAIR**
This temporary exhibition features the monumental aerial photographs of photographer J. Henry Fair as he documents the impact of human activity in the Adirondack Park. Scarring of the landscape from mining, paper mills, agriculture, climate change, etc. are not always apparent from the ground. Resembling colorful abstract paintings, these images sometimes require a closer look to fully realize that beauty hides a less attractive story.

**ADKX BOATHOUSE**
Follow our easy ¾-mile hiking trail to the newly constructed Adirondack-style boathouse — home to a fleet of vintage wooden craft including classic guideboats and canoes. Or, simply enjoy a picnic lunch at the boathouse along the shores of Minnow Pond.
